## **DETAILED ACTION**

### ***Specification***

1. The abstract of the disclosure is objected to because it contains legal phraseology such as "means" which should be avoided. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Plamondon. Plamondon discloses the claimed invention including anchoring rails 24, 26, cross members 20, 48, flexible cover 10, and cover supports 30 pivotal and slidable relative to the rails.

### ***Allowable Subject Matter***

4. Claims 1-20 are allowed.

Art Unit: 3612

5. The following is a statement of reasons for the indication of allowable subject matter: The primary reason for the indication of allowable subject matter of claims 1-19 is the recitation of "means for detachably attaching", "means for adjusting the height", and "means for adjusting the length" which is considered to invoke 35 U.S.C. 112 6<sup>th</sup> paragraph and which have no equivalent in the prior art of record.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references have either been discussed by applicant in the specification or are cited by the examiner as being related to the claimed invention.
